

Introducing CXN Clinical Xpert Navigator™

With Clinical Xpert, hospital-based doctors and allied health professionals have real-time access to clinical patient information — including medications, radiology and laboratory results, vital signs, demographics, and transcribed reports — via these supported devices:

- BlackBerry
- Windows Mobile
- Palm
- iPhone®
- iPod® touch
- iPad®
- Android OS support for Clinical Xpert Navigator™ will be coming soon from Thomson Reuters

[View a demo](#) of Clinical Xpert in action on the iPhone at the following link:

If you are coming by with your iOS device, please visit the Apple App Store before arriving and download the free app “**Thomson Reuters Clinical Xpert**”. While you are at it, you may also download another free app, Micromedex Drugs!

Did you know?

You may now review your patient's clinical data on your smartphone

- Who are my patients?
- Where are they?
- What are their medications, orders, and results?

Join us on **Wednesday, August 24th** in the **FMC Medical Affairs Conference Room** from **7:00 AM to 12:00 Noon** for a demonstration, quick set up and training.

Complete. Secure. Accessible. Anytime. Anywhere.
